Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

The owner of record of the present application, Broadcom Corporation, is currently involved in several disputes with Qualcomm, Inc., including the following pending lawsuits and investigations:

- In the Matter of Certain Baseband Processor Chips and Chipsets, Transmitter and Receiver (Radio) Chips, Power Control Chips, and Products Containing Same, Including Cellular Telephone Handsets, U.S. International Trade Commission Case. No. 377-TA-543
- Broadcom Corp. v. Qualcomm, Inc., Civil Action No. 05-467 in the Central District of California
- Broadcom Corp. v. Qualcomm, Inc., Civil Action No. 05-468 in the Central District of California
- Qualcomm, Inc. v. Broadcom Corp., Civil Action No. 05-1392 in the Southern District of California

- Qualcomm, Inc. v. Broadcom Corp., Civil Action No. 05-1958 in the Southern District of California

Pursuant to MPEP 2001.06(c), the Applicant would like to bring to the attention of the U.S. Patent and Trademark Office that the subject matter currently being claimed in the present application may be related to patents currently involved in these lawsuits and investigations. For the Office's benefit, the Applicant encloses as Exhibit A a list of the patents currently asserted by Broadcom in each of the pending actions.

The Applicant intends to timely file an IDS and completed PTO form SB08A (modified), as well necessary copies of various printed references listed in the form SB08A. The IDS will include a substantial number of references relied upon by Qualcomm in the litigation. Since the list of references is still being amended, and the references are still being accumulated, it is premature to submit the IDS at the present time. The IDS will, however, be submitted as soon as possible.

The documents being submitted were either produced or relied upon by Qualcomm, Inc. in connection with one or more of the above-mentioned actions. This submission is in no way intended as an admission that the cited references constitute prior art under any subsection of 35 U.S.C. § 102 or §103. The Applicant expressly retains the right to argue that any of the cited references are not indeed prior art or to take any actions necessary to remove any of the cited references from the available prior art.

The Commissioner is hereby authorized to charge additional fees or credit overpayments to the deposit account of McAndrews, Held & Malloy, Account No. 13-0017.

Date: December 15, 2005

Respectfully submitted,

Shawn L. Peterson

DEC 15 2005

05-467 Broadcom v. Qualcomm (Santa Ana)

6,847,686	Video Encoding Device
6,285,865	System And Method For On-Chip Filter Tuning
5,425,051	Radio Frequency Communication Network Having Adaptive Parameters
5,657,317	Hierarchical Communication System Using Premises, Peripheral And Vehicular Local Area Networking
6,389,010	Hierarchical Data Collection Network Supporting Packetized Voice Communications Among Wireless Terminals And Telephones

05-468 Broadcom v. Qualcomm (Santa Ana)

6,374,311	Communication Network Having A Plurality Of Bridging Nodes Which Transmit A Beacon To Terminal Nodes In Power Saving State That It Has Messages Awaiting Delivery
6,714,983	Modular, Portable Data Processing Terminal For Use In A Communication Network
5,682,379	Wireless Personal Local Area Network
6,359,872	Wireless Personal Local Area Network
6,583,675	Apparatus And Method For Phase Lock Loop Gain Control Using Unit Current Sources

337-TA-543 (ITC) (same as 05-468 (Santa Ana))

6,374,311	Communication Network Having A Plurality Of Bridging Nodes Which Transmit A Beacon To Terminal Nodes In Power Saving State That It Has Messages Awaiting Delivery
6,714,983	Modular, Portable Data Processing Terminal For Use In A Communication Network
5,682,379	Wireless Personal Local Area Network
6,359,872	Wireless Personal Local Area Network
6,583,675	Apparatus And Method For Phase Lock Loop Gain Control Using Unit Current Sources

05-1392 Qualcomm v. Broadcom (San Diego)

5,500,872	Spread Spectrum Base Band Processor
5,627,412	Dynamically Switchable Power Supply
5,946,344	Multiple-Rate Direct Sequence Architecture Utilizing A Fixed Chipping Rate And Variable Spreading Code Lengths
6,075,807	Windowed Digital Matched Filter Circuit For Power Reduction In Battery-Powered CDMA Radios
6,320,896	RF Receiver Having Frequency-Hopping/Direct-Sequence Spread Spectrum Signal Discrimination
6,714,559	Redundant Radio Frequency Network Having A Roaming Terminal Communication Protocol
